### Quickly Change an Individual Student's Record

To quickly change an individual student's record, click the appropriate code in the **Quick Change** column, or click the student's name to edit the record. If you click more than one code in the Quick Change column, or click the same code twice, verify that the correct values appear in the **Code** column. Depending on how your Aspen administrator creates attendance codes, the system either adds or replaces codes you click. For example, if you click **A** (absent), and then click **T** (tardy) in the Code column to mark a student tardy and absent, the system either displays **AT** or only **T** in the Code column.
